

## Her Health Restored

THE misery of sleeplessness can only be realized by those who have experienced it. Nervousness, sleeplessness, headaches, neuralgia, and that miserable feeling of unrest, can surely be cured by Dr. Miles' Restorative Nervine. So certain is Dr. Miles of this fact that all druggists are authorized to refund price paid for the first bottle tried, providing it does not benefit. Mrs. Henry Burns, wife of the well known blacksmith at Grand Junction, Iowa, says: "I was troubled with sleeplessness, nervousness, headache and irregular menstruation; suffering untold misery for years. I used various advertised remedies for female complaints besides being under the care of local physicians, without help. I noticed in Dr. Miles' advertisement the testimonial of a lady cured of ailments similar to mine, and I shall never cease to thank that lady. Her testimonial induced me to use Dr. Miles' Nervine and Nerve and Liver Pills, which restored me to health. I cannot say enough for Dr. Miles' Remedies."

Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on diseases of the heart and nerves free. Address, DR. MILES MEDICAL CO., Elkhart, Ind.

## FILIPINO COMMISSION

Believed to Be Doing Its Utmost to Bring About Peace.

## GEN'L. LAWTON'S SCOUTS

Enter the Town of San Miguel and the Enemy Immediately Begins a Retreat—Captain Young and Another Scout Wounded and Taken to Manila—Dewey's Home-Coming.

Manila, May 15.—The civilian members of the United States Philippine commission are favorable to the meeting with a Filipino commission, which was suggested Saturday on behalf of Aguinaldo, by Lieutenant Rejes of the staff of General Gregorio Del Pilar, who came to General Lawton under a flag of truce, bearing the proposal. It is thought by the American commissioners that the idea may have resulted from a recent meeting of the so-called Filipino congress at San Isidro. Definite information on this point, however, cannot yet be obtained, though the local Filipino commission, which is in close communication with the leaders of the rebellion, is doing its utmost to secure peace.

Ten members of Major General Lawton's band of scouts, under William Young, the old Indian fighter, entered the town of San Miguel, about 15 miles north of Noregarav, not aware of what place it was. They found 200 Filipinos there, but the rebels, taking the scouts for the advance of General Lawton's army, fled, after firing a few shots. Young and another scout were wounded, and have been brought to Manila. The Ninth infantry and a mountain battery of six guns have been sent to the front.

The uniform quiet now prevailing in Manila has led the authorities to relax the rule under which the city streets were cleared from 7 to 8:30 p. m., and last evening there was the largest and most brilliant assembly of pedestrians and people in carriages to listen to a band concert on the Luneta that has been known here since the Spaniards left.

Professor Schurman, president of the United States' Philippine commission, gave a farewell luncheon yesterday to Admiral Dewey, at which Professor Dean C. Worcester and Colonel Charles Denby of the commission, with General MacArthur, Mrs. Lawton and others were present. The health of the admiral was drunk with the utmost cordiality.

## RIOS' TROOPS

Spain Orders Their Withdrawal From the Philippines.

Madrid, May 15.—Senator Don Francisco Silvela, the Spanish premier, in an interview yesterday regarding the attack by the Filipinos upon the Spanish garrison at Zamboanga, Island of Mindanao, in which two Spanish officers and three men were wounded and one man was killed, said:

"It is very painful to us to have suffered these losses in a territory which does not belong to us. We left these troops in the Philippines in the hope that they might aid in securing the release of the Spanish prisoners in the hands of the Filipinos. Our efforts in this direction have been fruitless. Aguinaldo refuses to treat with us and a Frenchman (M. Dumarais) who had offered on our behalf to treat with the enemy, was killed by them."

"America has not yet succeeded, as she has no more authority than we had. We cannot leave troops any longer in a territory that we are not obliged to defend, and I have telegraphed General Rios to use three steamers for the immediate transportation of our troops from Zamboanga and Yolo, and to ac-

Wake Up! You are an energetic man—an ambitious one. But it is hard to get up in the morning. You feel that you could take just one more nap, and one more still more. Your head is heavy. You hate to get up. Your mouth tastes

bad. Your breakfast does not suit, and you are irritable. When you go to work you do not feel like it. You feel all day, and a couple of hours before closing time you turn in and work like a good fellow. When it's time to stop, you are warm up for a six day's go-as-you-please. But it is too late, and the next morning it is the same thing over again.

That isn't laziness—it's sickness—real, serious sickness. And later it will develop into something worse—liver trouble, consumption, blood disease, or nervous prostration. There is a remedy that will put you on your feet—Dr. Pierce's Golden Medical Discovery. It will wake up your stomach, give you an appetite, and put vim in your blood. It will make a new man of you. It contains no alcohol and will not create appetite for stimulants.

Mr. Charles Hurwick, of Lenox, Macomb Co., Mich., writes: "I have never felt better in my life than I do now. I have taken Dr. Pierce's Golden Medical Discovery right along. I can now walk quite well with a cane and hope to throw even that away before long, and as I have had to use crutches for nearly two years, I think I am doing fine. I do not cough now and I can sleep like a school boy. I have been treated in two hospitals and by three doctors besides, and received no benefit, so I think your medicine is the only medicine for me."

Do not let any one induce you to take a substitute in place of "Golden Medical Discovery." Buy of reliable dealers. With tricky ones, something else that pays them better will probably be offered as "just as good." Perhaps it is for them; but it can't be for you.

quaint Major General Otis with those instructions, so that the American commander may possess the territories we are abandoning.

The Filipino commission has issued a manifesto to the press declaring that the "Filipino government" will reject all negotiations for peace on the part of Americans based upon any scheme of autonomy, and will demand that the United States fulfill the engagement made before the declaration of war with Spain.

The manifesto denies that General Antonio Luna has surrendered and asserts that Major General Lawton is routed and that the hospitals are "filled with Americans."

Prominent Illinois Lutheran Dies Suddenly In a Milwaukee Church.

Milwaukee, May 15.—John L. Deffner of Belleville, Ill., one of the oldest Lutheran teachers in the west, died yesterday of heart failure, aged 72 years. He came to Milwaukee for the special purpose of hearing his son, Rev. H. Deffner of Kansas City, preach at the St. John's Evangelical Lutheran church in the town of Greenfield, a suburb of this city. No sooner had the text been read than the father of the preacher fell forward and expired in a few minutes. Mr. Deffner, Sr., was well known in Lutheran circles in Illinois, Missouri, Iowa and Minnesota.

Killed For Refusing to Buy Drinks.

Chicago, May 15.—Henry Reitz, a janitor at the Jefferson school, refused to buy drinks with two men whom he met in a saloon yesterday and a short time later he was struck a fatal blow by one of his companions. He was found unconscious by two policemen and died in a few minutes without making any statement.

## TWENTY-NINE

Lives Lost as the Result of the Railroad Wreck at Exeter, Pa.

Reading, Pa., May 15.—The total number of dead, as a result of Friday night's rear-end collision on the Philadelphia and Reading railway at Exeter, six miles below here, reached 29 yesterday. William D. Jenkins of Norristown dying last evening at the hospital at that place. Of the large number of injured persons still in the hospitals here, three are in a serious condition and small hope is entertained for their recovery. They are William Friedhorn, Thaddeus S. Adle and George W. Holmes, all of Norristown. Holmes' 9-year-old son was instantly killed in the accident, but the hospital physicians have not yet informed the father of the boy's death. All of the dead here have been identified and all the bodies have been claimed by relatives or friends and have been sent to their various homes.

Flagler and S. W. Rosendale. The remains were taken to Watertown.

Roosevelt Issues a Proclamation.

Albany, N. Y., May 15.—Governor Roosevelt last night issued a proclamation on the death of Roswell P. Flower. After eulogizing the ex-governor the proclamation requests that the flags up on all the public buildings of the state, including the armories and arsenals, be displayed at half mast up to and including Wednesday, May 17, and that the citizens of the state unite in appropriate marks of respect to his memory.

## PLATFORM DEMOCRATS

Alleged They Have Taken Steps to Defy Tammany.

New York, May 15.—Acting under orders from the National Democratic committee, it is said, 100 Chicago platform Democrats met last night in this city and took steps to at once thoroughly organize the city and later the state of New York to defy Tammany Hall. A committee of 20 was appointed to at once arrange the five boroughs to systematically work them. James R. Brown presided at the meeting, and after the meeting said that a contesting delegation of Bryan and Chicago platform men will be sent from this state to the next national convention.

## New York Legislature.

Albany, N. Y., May 15.—On Tuesday next Governor Roosevelt and the leaders of the Republican party will, it is expected, fix the date for holding the extra session of the legislature to consider the Ford franchise tax and rapid transit measures. It will either convene May 22 or the first week in June.

## Grain Shovelers' Strike Ended.

Buffalo, May 15.—The grain shovelers returned to work this morning under the agreement reached at the conference between the lake carriers, elevator men and grain shovelers. The terms of the agreement were reduced to writing and properly signed last night at the residence of Bishop Quigley. Attorney Goulder of Cleveland acted for the Lake Carriers' association and Attorney John Cuneen of this city, represented the shovelers.

## Sugar Refinery Burned.

Waukegan, Ill., May 15.—The feed house of the United States sugar refinery burned yesterday. Loss, \$50,000; insured. The fire will be the cause of much inconvenience to the American Glucose company as business at this time is brisk.

## MILLIONS IN CLAIMS

Resulting From Spanish War to Be Filed Against the United States.

## THE STATE DEPARTMENT

Informally Advised In Some Instances of the Aggregate—They Come From British, French and German Residents of Cuba—No Provision In the Treaty For Their Recognition.

Washington, May 15.—The state department has been informally advised that claims aggregating a considerable amount have been made by British, French and German residents in Cuba during the recent insurrection, and that these ultimately will be pressed against the United States government. The claims themselves have not yet been presented, but are being collected by the several foreign offices as the claimants send them in. In some cases schedules have been made, and the aggregate stated to the authorities here. The French claims aggregate between 12,000,000 and 15,000,000 francs. The German claims are understood to be slightly under those of the French, while the British claims are said to be considerably more than the French or German.

These foreign claims are quite distinct from those of citizens of the United States, originally against Spain, for damages sustained in Cuba during the insurrection. The peace treaty specifically provided for these American claimants, releasing Spain and stating that the United States would make such settlement as was proper. Under this clause claims aggregating several millions have been filed. No provision, however, was made by the treaty for foreign claimants, and there appears to be much doubt as to who is liable since the sovereignty over Cuba has passed out of the hands of Spain. The United States having undertaken to look after the American claimants, the foreigners are desirous of being treated in the same manner.

It was stated at one of the foreign establishments there was no disposition to push the claims unduly, but to bring them to the attention of the United States government in order that the question of liability might be determined and such relief granted as the merits of the cases warranted. It is appreciated in these foreign quarters that payments will be largely a matter of discretion with the United States, as the obligation to look after the American claimants was assumed voluntarily and there is no obligation, either in the treaty or on general principles of law for assuming the claims growing out of Spain's inability to maintain order in Cuba during the period of Spanish rule.

These foreign claims cover damages to plantations, personal property, etc., of French, British and German residents of Cuba, and are not connected with the bonded debt of Cuba in foreign hands, which debt was assumed by Spain.

## ADMIRAL DEWEY

Expected That Distinguished Honors Will Be Tendered In Foreign Ports.

Washington, May 15.—Admiral Dewey's home coming by way of the Mediterranean is likely to give occasion for distinguished honors from the navies of Europe most of them being represented by extensive squadrons in those waters, and some of them having their naval stations at Mediterranean ports. Already Ambassador Cambon of France has called the attention of the authorities at Paris to the return of Admiral Dewey by way of the Mediterranean and the probable sailing of his flagship Olympia, past the French naval ports in Algeria.

The British authorities have taken no steps thus far to have the admiral stop at British ports, but it was stated yesterday by one of the British officials that Dewey would be assured a most enthusiastic greeting if he stopped at any British station, and that undoubtedly steps would be taken to induce him to touch at Plymouth and Portsmouth, the southern naval depots of England.

## SITUATION IN PHILIPPINES

As Reported to the War Department by General Otis.

Washington, May 15.—The following dispatch from Major General Otis, giving the status of the military situation as it now exists in the operations against the insurgents, has been received at the war department: "Situation is as follows: Lawton from Baling has taken Ilo Ilo and San Miguel to the north with slight loss and driving considerable force of enemy; gunboats and cañoes accompanied 1,500 men, under Kobbe, up Rio Grande river from Calumpit, depart 16th; MacArthur remains at San Fernando, covering country. \* \* \*

Yesterday messenger from Aguinaldo expressing wish to send commission to Manila for a conference with United States commission to arrange terms of peace; directions given to pass body representative insurgents to Manila should it present itself."

## Otis' Cablegram.

Washington, May 14.—The war department yesterday received the following dispatch from General Otis at Manila: "It is reported that at Zamboanga insurgents attacked Spanish troops on the 11th inst., using quick firing guns and arms captured from Spanish gunboats. Spanish general and two officers wounded. Few casualties among the troops. Spanish garrison now besieged. Water supply cut off and troops calling for relief."

## GREAT 16-INCH GUN.

Range of This Mammoth Firearm Will Exceed Fifteen Miles.

Washington, May 15.—The ordnance officers of the war department are of the opinion that the great 16-inch gun now being constructed at the Watervliet arsenal will be mounted and ready for trial by the early fall. This is the greatest piece of ordnance ever manufactured in this country, and it is three inches larger than the heaviest gun in use in the navy—the 13-inch guns on the battleships. The army rifle is intended as a part of the defense of New York harbor.

The manufacture of this great gun is in the nature of an experiment, and unless its success is fully demonstrated by practical tests, there is no probability of its duplication. The nickel steel ingot from which the main tube is constructed alone weighs 222,000 pounds. Its diameter is 74 inches and its length, including the slak head, 109 inches. The cost of the gun so far in its crude shape has amounted to over \$70,000. When finished its total cost will be \$150,000. The estimated muzzle velocity is 1,975 feet a second. The penetration in steel will be 33.8 inches at a distance of two miles. Its range will exceed 15 miles.

## To Endow a Chair.

Washington, May 15.—Right Rev. Mgr. Conaty, rector of the Catholic University of America, has received a telegram from Kansas City informing him that the Catholic Knights of America, at their convention, had voted unanimously to endow a chair at the Catholic University.

## RUSSIA'S

Request For Permission to Build a Railroad to Peking Denied.

Shanghai, May 15.—The Tsung Li Yamen (Chinese foreign office) has replied to the Russian minister at Peking, M. De Giers, that the government is unable to accede to the Russian demand made last Wednesday for a new railway concession connecting Peking with Russia's present system in Manchuria.

Not since the taking of Port Arthur by Russia have the Chinese been so agitated as over this demand. Whether M. De Giers named a specific route is not yet ascertainable. Some officials stating that only a preliminary notice was given by Russia, and others that she is asking for a line direct from Peking to Shan Hai Kwan.

Certainly the British legation in Peking had no previous knowledge that such a proposal was coming from St. Petersburg. The concession asked for would ruin the existing northern railways, in which British capital to the amount of £2,000,000 is invested, but there seems to be no alternative route, without interfering with the plans for railway extension which the Chinese themselves have in mind.

It is believed that Russia's action in this matter is intended to demonstrate to the world that the recent convention with Great Britain respecting spheres of interest in China, which was notified to the Chinese government almost immediately before this latest concession was demanded, has not fettered the action of Russia at the court of Peking, and also to strengthen Russia's prestige with the Chinese, which was unfavorably affected by her withdrawal of her late protest respecting the northern railways.

## ANOTHER CONFERENCE

Brooke and Gomez Will Again Talk About That \$3,000,000.

Havana, May 15.—General Gomez has sent a message to Governor General Brooke that he will do himself the pleasure of calling at headquarters today for a further conference regarding the payment of the Cuban troops. The appointment for the interview is the result of a direct inquiry as to what General Gomez intended to do in view of the resignation and nonappearance of all the Cuban officers nominated by him to represent the several corps in the distribution of the \$3,000,000. General Brooke is determined to disregard for the present the reports that have reached him from various sources as to the alleged intention of Gomez to withdraw his co-operation and thus throw into confusion the carefully matured plans for distributing the fund.

## Wages of '92 Restored.

Bellaire, O., May 15.—At the Bellaire, O., mill, La Belle mill of Wheeling and Benwood and blast furnace of Martin's Ferry, O., four of the large iron works of the Wheeling Steel and Iron company, have granted the 3,000 employees an advance in wages of 10 per cent, which took effect today. This increases the wages to the standard price paid in '92.

## FOUND GOLD

Old Klondiker Makes a Discovery In the Canal at Logansport.

Logansport, Ind., May 15.—David L. Bush, who recently returned from the Klondike, claims to have discovered a streak of gold along the old canal bed in this city. The gold, which he claims to have found, was in small particles, mixed with quartz and sand, and resembles that taken from the goldfields of Colorado. Mr. Bush took the gold to Dr. F. M. Bozer, who has fused and refined it, and pronounces it gold of the highest quality. It is claimed that Mr. Bush has secured backing and will push his investigations further.

## Explosion In a Brickworks.

Sheridan, Ind., May 15.—A boiler explosion occurred at the brickworks here Saturday, scalding and covering with fragments of brick walls and timbers Engineer Joseph Pascel. He was rescued from the wreck by his brother, and his injuries will prove fatal. A 10-year-old boy went through the wreck almost unharmed. The damage is about \$8,000.

## LAKE DISASTER

Schooner Laden With Coal Goes Down With All on Board.

Sault Ste. Marie, Mich., May 15.—The schooner Nelson, deeply laden with a cargo of coal, foundered in Lake Superior, off Grand Marais, Saturday and carried down all hands. So far as is known here only one man, Captain Haghey, escaped from this, the first disaster of the season. The crew consisted of the following:

Captain Andrew Haghey of Toledo. Mrs. Haghey and 2-year-old child. Fred Haas, sailor, residence unknown. Six sailors, names unknown. The Nelson was in tow of the steamer A. Folsom, which also had the schooner Mary B. Mitchell as a consort. The Folsom and Mitchell turned back and arrived here last evening without serious damage. Captain A. E. White, master of the steamer, at once reported the disaster to the owners.

The Folsom, Mitchell and Nelson were laden with coal. At the time of the disaster the wind was blowing a gale of 50 miles an hour and freezing hard. The three boats were being coated with ice, and this, added to their coal made them ride very low in the water. Seas broke aboard constantly and the force of the gale was driving them toward the beach.

The beach at Grand Marais was but four miles under the lee of the boats and Captain White determined to try the dangerous expedient of turning the wind in the sea and running before the wind for White Fish Point. Before the turn was finished the Nelson was seen to turn toward the shore and it became evident that the line had parted under the strain or had been cut. Soon it became apparent that she was sinking. There was no chance of rendering any assistance, however. In a few minutes the Nelson threw her stern into the air and dove straight for the bottom, where she sank there in 800 feet of water. The crew had no time to even lower their yawl boat, which hung on the Davits at the stern.

TELEPHONE TALK.

We Can Now Gossip With Columbus, and Other Points in Bartholomew County.

Saturday evening Chas. Leisinger completed his telephone line to Jonesville where he connects with the City's Telephone which has lines all over Bartholomew county. Saturday evening W. H. Butler, president of the Citizens' company, rang up the Republican office and announced that Jackson and Bartholomew counties were within hailing distance of each other.

This gives Seymour direct connection with Columbus, Jonesville, Azalia, Clifford, Hope, Newbern, Elizabethtown, and other points, which makes our telephones of more value to us.

Another Soldier Letter.

Editors of the REPUBLICAN: I hope you can find space in your paper for a few words from a soldier boy far from home, relatives and friends.

Today is a joyous one for about seventy-five of our boys who enlisted for the war. This morning they answered revilee as the last tribute of respect in Cuba to the Spanish-American war, and at 6:30 they marched down to the San Jose wharf where they will embark on the steamer "City of Havana." But many of the boys will have many a heartache and pain upon meeting the throng of relatives and friends who meet and greet him to find a father, mother or sister missing from the happy throng and then the thought will come to him how bright and happy his little family was when leaving and nothing to mar their happiness. But our nation is proud that she has men who will leave parents, friends and sweethearts to fight for the noble stars and stripes which have protected him from his infancy. We hope all the boys will have a happy reunion and the fatted calf will be killed and that then they may return to their former pursuits enjoying the blessings of peace and liberty which our noble nation affords. But we boys who are left must bear the pain for almost two years yet as those who enlisted prior to April 21, '98 must stay 3 years.

But we live in happy anticipation when we can return again to our loved ones and then we shall enjoy the fruits of our labors for defending our country against the enemy.

So hoping all our friends and relatives will write often as it is a great satisfaction to read a letter from home. Any letter addressed to me will be greatly appreciated and answered immediately.

Respectfully, WILLIAM ABERNATHY, Battery "I" 2nd U. S. Artillery, Havana, Cuba.

Class Address.

The annual address before the high school graduating class was delivered at the Methodist church last evening by Rev. J. M. Baxter and is pronounced one of the very best ever heard in Seymour. It was along educational lines and thoroughly practical.

The new smoke stack, seventy feet high, at the Hominy Mill was raised Saturday.

Miss Nellie Clark was 17 years old Sunday. She received a number of nice presents.

Fiecherty & Lucas began plastering M. S. Blish's new residence today.

Mrs. C. L. Baker, of Bedford, went today to Ottawa, O., to visit her sister, Mrs. John Crayer. The former is a sister to Mrs. W. E. Hoadley.

Grain-O Brings Relief. To the coffee drinker. Coffee drinking is a habit that is universally indulged in and almost as universally injurious. Have you tried Grain-O? It is almost like coffee but the effects are just the opposite. Coffee upsets the stomach, ruins the digestion, effects the heart and disturbs the whole nervous system. Grain-O tones up the stomach, aids digestion and strengthens the nerves. There is nothing but nourishment in Grain-O. It can't be other.

### SUPERIOR SERVICE IN DRUGS and MEDICINE

It has long been our custom and will continue our custom as long as we remain in business to handle only drugs and chemicals which we absolutely know to be of superior strength and purity.

No Doctor can obtain the desired results in the sick room unless his prescriptions are filled as he intended them to be, i. e., with drugs of the highest quality. The sick room is the one place above all others where quality counts above everything else. If you want the patient to improve; to respond to the physician's labors, you must be particular with the medicine. You must have his prescription filled with nothing but pure and fresh drugs and chemicals. We cordially invite your patronage and assure prompt attention and courteous treatment.

### "LITTLE TOWN OF TAILHOLT"

Gets the Depot and Develops a Boom.

No longer is "the little town of Tailholt" in Redding township merely a point where a short switch is located and from where an occasional car load of logs is picked up in passing, but it has become a regular stopping place for all trains on the Southern Indiana. The transformation took place Sunday and as a result "Tailholt" has a boom on today.

Sunday the Southern Indiana construction train went up to Reddington, loaded the depot on a flat car and took it down to Tailholt, a distance of about a half mile, and placed it in position, and today the old depot is doing service at the new station.

It is anticipated that the change will meet with considerable opposition on the part of Reddington citizens, for already there is much talk that indicates dissatisfaction. The change of the station may mean the change of the postoffice in the course of time.

Terre Haute the Scene of Much Disorder Caused by Bad Blood Between Rival Schools—Fish Laws Violated at Lake Wawasee—Other State News.

**RIVAL COLLEGE MEN.**

Had a Warm Time in Terre Haute Saturday Night.

Terre Haute, Ind., May 15.—All through Saturday night the uptown streets were filled with squads of yelling college men from the Rose Polytechnic institute and the Indiana State Normal school. For some time there has been bad blood between the students of the two institutions resulting from a disputed ball game. Saturday night 100 of the polytechnic men broke into P. J. Kimmel's room and endeavored to kidnap him. Kimmel, who is physical director in the State Normal, at the point of a revolver compelled the collegians to retire. Later 250 Normal men acted as a bodyguard for the physical director and there were frequent clashes between the two colleges. The authorities of the two schools are taking active steps to suppress further fighting.

**LIME AND A JUG.**

All That Fishermen Need to Take the Finny Tribes at Wawasee.

Millford, Ind., May 15.—Parties, desiring to evade the fish laws of Indiana, at Lake Wawasee, have adopted a novel plan. It having become dangerous, because of the vigilance of the officers, to use dynamite, the scheme was adopted of putting unslaked lime in a jug, cork it tightly and then puncture the cork so as to admit water in small quantities and the jug is lowered at some favorable spot in the lake. The lime becomes wet, and, slaking in the tight jug, bursts the vessel, the explosion being such as to shock or kill the fish for some distance, and as they rise to the surface they are gathered in. Hundreds of pounds of fine bass are said to have been killed in this manner and sold in neighboring markets.

**ORPHAN ASYLUMS**

Attorney General Renders an Opinion as to County Aid.

Indianapolis, May 15.—Attorney General Taylor has settled the question of county aid to orphan asylums in an opinion rendered to Secretary Butler of state board of charities, in which he holds that where a county does not own and manage an orphan asylum of its own, it may pay for the care of orphans, and that an institution so contracted with becomes a quasi county institution. He further holds that the act of 1897 is still in force. The opinion was rendered in response to a letter from Mr. Butler.

**MRS. D. M. GEETING DEAD**

Was the Wife of Former Superintendent of Public Instruction.

Indianapolis, May 15.—Mrs. D. M. Geeting, wife of the former superintendent of public instruction, died yesterday afternoon at her home in this city. She had been ill for a long time with consumption. The funeral will take place tomorrow.

**Patent Right Dealer Arrested.**

Vincennes, Ind., May 15.—George Cummins was arrested by Sheriff Cox Saturday on a requisition of Governor Mount. He is wanted at Effingham, Ill., on a charge of trading a patent right territory in Illinois for a farm, and then, on learning that the deed was worthless, trading the farm for a big store at Effingham, which he sold out at auction and then came home. The prisoner is a well known farmer and patent right dealer of this county.

**She Climbed the Standpipe.**

Veedsburg, Ind., May 15.—Miss Eva Still of this place, climbed the water tower standpipe here simply as an adventure. After reaching the top she walked around the platform waving her handkerchief to her friends below, and then descended as if it were only a little exercise. There are but few men who will perform the same feat, and her courage and fearlessness have made her the star of the town.

**Died on the Operating Table.**

Terre Haute, Ind., May 15.—William McEntee, a well known cigarmaker, died on the operating table at St. Anthony's hospital Saturday. He was to have been operated on for kidney trouble, but soon after the anesthetic had been administered it was seen that he was dying and he never regained consciousness.

**Shot With a Target Gun.**

The auction sale of jewelry and silverware from S. V. Harding's immense stock began this afternoon. Mr. Martin, the auctioneer, is in good trim and entertains the crowd. Mr. Harding is not closing out his business here, but making a change which requires that his large stock be reduced as much as possible. ## Another Soldier Letter.

Editors of the REPUBLICAN:

I hope you can find space in your paper for a few words from a soldier boy far from home, relatives and friends.

Today is a joyous one for about seventy-five of our boys who enlisted for the war. This morning they answered revile as the last tribute of respect in Cuba to the Spanish-American war, and at 6:30 they marched down to the San Jose wharf where they will embark on the steamer "City of Havana." But many of the boys will have many a heartache and pain upon meeting the throng of relatives and friends who meet and greet him to find a father, mother or sister missing from the happy throng and then the thought will come to him how bright and happy his little family was when leaving and nothing to mar their happiness. But our nation is proud that she has men who will leave parents, friends and sweethearts to fight for the noble stars and stripes which have protected him from his infancy. We hope all the boys will have a happy reunion and the fatted calf will be killed and that then they may return to their former pursuits enjoying the blessings of peace and liberty which our noble nation affords. But we boys who are left must bear the pain for almost two years yet as those who enlisted prior to April 21, '98 must stay 3 years.

But we live in happy anticipation when we can return again to our loved ones and then we shall enjoy the fruits of our labors for defending our country against the enemy.

So hoping all our friends and relatives will write often as it is a great satisfaction to read a letter from home. Any letter addressed to me will be greatly appreciated and answered immediately.

Respectfully,

WILLIAM ABERNATHY,  
Battery "I" 2nd U. S. Artillery.  
Havana, Cuba.

to the coffee drinker. Coffee drinking is a habit that is universally indulged in and almost as universally injurious. Have you tried Grain-O? It is almost like coffee but the effects are just the opposite. Coffee upsets the stomach, ruins the digestion, effects the heart and disturbs the whole nervous system. Grain-O tones up the stomach, aids digestion and strengthens the nerves. There is nothing but nourishment in Grain-O. It can't be other.

### "LITTLE TOWN OF TAILHOLT"

Gets the Depot and Develops a Boom.

No longer is "the little town of Tailholt" in Redding township merely a point where a short switch is located and from where an occasional car load of logs is picked up in passing, but it has become a regular stopping place for all trains on the Southern Indiana. The transformation took place Sunday and as a result "Tailholt" has a boom on today.

Sunday the Southern Indiana construction train went up to Reddington, loaded the depot on a flat car and took it down to Tailholt, a distance of about a half mile, and placed it in position, and today the old depot is doing service at the new station.

It is anticipated that the change will meet with considerable opposition on the part of Reddington citizens, for already there is much talk that indicates dissatisfaction. The change of the station may mean the change of the postoffice in the course of time.
